

**XOLAIR (omalizumab) Clinic now open at
Kingston Allergy and Asthma**

Dr. Ellie Tsai

613-546-6673

Fax 613-544-3288

What is Xolair?

Asthma therapy that blocks antibody IgE, a major cause of allergic asthma

Our clinic is now equipped to administer Xolair shots for qualifying patients.

Patients must meet the following criteria:

- Uncontrolled moderate-severe persistent asthma
- Asthma triggered by year-round environmental allergies
 - Drug coverage
 - At least 12 years of age

Please contact our office for assessment and administration of shots.
